च

Read the passage carefully and answer the questions that follows

Assessment is central to almost all forms of education around the world, and in recent years, a wider variety of assessment has tended to be used. One such form of this change is the use of peer and self-assessment. Self-assessment can be defined as "the ability to critically assess one's own work" (Brew, 1999) and peer assessment as "making judgments about, or commenting upon, each other's work". As with all assessment methods, both have their own strengths and weaknesses. It can be argued that peer and self-assessment with careful initiation and moderation are effective

methods of assessment. However, this brief note will argue that in the high stakes environments of most educational settings, these methods are inappropriate, as the making is unreliable.

Peer and self-assessment have become increasingly common as methods of assessment. particularly in further and higher education. They are used as methods to reduce the marking loads of teachers and it is claimed, to enhance group work and the critical thinking skills of students. It is also claimed that if marking criteria are discussed and agreed at the start, students' marking does not differ significantly from teachers. In studies where the assessment of different teachers is compared, and also in studies where teacher's and peer's and or self-assessments are compared, it has generally been found that, provided criteria are discussed and agreed in advance, marks tend to be similar. Thus, it could be argued that with the right initial training, there is no difference between work being marked by a teacher or a student.

Which one of the following captures the meaning of "Assessment is central to almost all forms of education"

Options:-

- Assessment education is key to education in all forms Option ID :- 9915,
- Assessment is education in all forms Option ID :- 9914,
- Assessment is peripheral to education in all forms Option ID :- 9916,
- Assessment is pivotal to education in all forms Option ID:- 9913

Answer:- Assessment is pivotal to education in all forms Option ID : 9913

47. Question ID:- 2480

अथवा उस पर टिपणी करना" के रूप में परिभाषित है। "जैसा की सभी मूल्यांकन प्रणालियों के बारे में ज्ञात है, इन दोनों की भी अपनी-अपनी शक्तियां तथा कमजोरियां हैं। यहाँ यह कहा जा सकता है कि सावधानीपूर्वक प्रारंभ तथा नियंत्रण के साथ सह-समूह मूल्यांकन तथा स्व-मूल्यांकन, मूल्यांकन की प्रभावी प्रणालियां हैं। परंतु इस संक्षिप्त टिप्पण में यह तर्क दिया जा सकता है कि अधिकांश शैक्षिक विन्यास में जहां कई चीजें बड़ी दांव पे लगी होती हैं, ऐसे वातावरण में ये प्रणालियां उपयुक्त नहीं हैं क्योंकि अंकन (नंबर देने की विधि) विश्वसनीय नहीं है।

सह-समूह मूल्यांकन तथा स्व-मूल्यांकन विशेषकर आगे की शिक्षा तथा उच्चतर शिक्षा में मूल्यांकन प्रणाली के रूप में काफी प्रचलित हो रही है। ये शिक्षकों द्वारा नंबर दिए जाने के कार्यभार को कम कर रही हैं, तथा यह भी दावा किया जा रहा है कि इनसे विद्यार्थियों के समूह कार्य विवेचनात्मक चिंतन में भी वृद्धि होगी। यह भी दावा किया जाता है कि यदि आरंभ में हो अंकन मानदंड पर चर्चा कर उस पर सहमति बनाई जाए, शिक्षकों के द्वारा किए जाने वाले विद्यार्थियों के अंकन में कोई विशेष अंतर नहीं होगा। सामान्यतः यह पाया गया है कि यदि आरंभ में मानदंडों पर चर्चा द्वारा सहमति बनाई जाए, तो ऐसे अध्ययनों में जहां विभिन्न शिक्षकों के मूल्यांकन की तुलना की जाती है, वहां अंकन एक समान रहता है। इस प्रकार यह कहा जा सकता है कि आरंभ में समुचित प्रशिक्षण के बाद किसी शिक्षक अथवा विद्यार्थी के द्वारा किए जाने वाले अंकन कार्य में कोई अंतर नहीं होता।

"Students' marking does not differ significantly from teachers", means:

"शिक्षकों द्वारा विद्यार्थियों का आंकलन से अंकन (नंबर देने की क्रियाविधि) में विशेष अंतर नहीं होता " इसका अर्थ है :

Options:-

- Marks do not differ peripherally/अंक परिधीय रूप से भिन्न नहीं होते हैं।, Option ID :- 9918,
- Marks may or may not differ/अंक भिन्न हो सकते हैं अथवा नहीं भी हो सकते हैं।, Option ID :- 9920,
